Bible Characters Series

These series of Bible Characters narrate some characters of the Bible stories, both in the Old Testament and the New Testament. Through reading these series, children are invited to know those characters closer, especially on the virtue of each character. Besides knowing the characters better, the children are invited to do reflection in a simple way: knowing themselves, knowing the good personalities they already possess, and applying them in their lives. Therefore, it would be great if parents take the time to accompany their children in reading these books and afterwards reflect on it together.
